- Thank you for participating in this evening's Public Information Meeting on the Reconstruction of Charles Street between 25th Street and University Parkway. In order to help our analysis effort, do you have any Charles Street Reconstruction concerns beyond those presented or discussed tonight?

The intersection of Charles + AA Museum Drive is the most unsafe part of this reconstruction for pedestrians. There needs to be special attention paid to how to get cars ~~getting~~ going south on the green to yield to pedestrians.

Perhaps blinking orange arrow - ?

More signs -

The curb change is a change in the right direction but may not be enough -

Please mail or fax your comment to:
