- Thank you for participating in this evening's Public Information Meeting on the Reconstruction of Charles Street between 25th Street and University Parkway. In order to help our analysis effort, do you have any Charles Street Reconstruction concerns beyond those presented or discussed tonight?

I FEEL that the 11+4 = 15' lane for off peak parking plus bike lane provides an excellent compromise to parking / traffic lane / bicycling. I have had a consistently pleasant experience in the Roland Ave section (Cold Spring → Lake Ave) and feel that this is one of the best points to integrate into the City wide plan.

I do not feel that the East Service drive is absolutely necessary, especially for the entire length of the 29 → Univ section.

Please mail or fax your comment to:
