Thank you for participating in this evening's Public Information Meeting presenting the City's Selected Alternative for the Reconstruction of Charles Street between 25th Street and University Parkway. In order to help our analysis effort, do you have any Charles Street Reconstruction concerns beyond those presented or discussed tonight?

I'd like to bring into your thoughts the Mayor's decision to make Charles St 2-way between 29th and Penn Station. My son gets around the country. He says Baltimore is a joy to drive in compared to other cities, the traffic flow and the timed lights are handled so well here. The one-way traffic on Charles and the adjacent one way north and south streets proceeds with great efficiency during rush hours. In the rest of the day it isn't very busy. Why tamper with something that has been working well for decades. Would he maybe reconsider his decision.
