- Thank you for participating in this evening's Community Meeting on the Reconstruction of Charles Street between 25th Street and University Parkway. The focus of this evening's meeting is on the "Boulevard" portion of this project between 29th Street and University Parkway. In order to help our analysis effort, do you have any Charles Street Reconstruction concerns beyond those presented or discussed tonight?

*Concerns were presented with strong viriferity
 There were few indications of any willingness to accept those
 and to accept to change
 The City has remained firm in its perception of high volume
 and continues to leave all with the impression that the real need
 is to move a high volume of vehicles, quickly*

- Are there any other solutions for Charles Street that have not been considered but that you believe merit examination?

*Many better solutions have been on the table which would
 better address the concerns of all. These are not being given
 serious consideration
 Moreover, THU has additional development plans in
 progress that have not been considered as part of this
 process*

- Please add my / our name(s) to the Project Mailing List.
 I have visited the project's website @ www.CharlesStreet.mdproject.com
